

# Shape our future

**myclimate is your partner for effective climate protection – both locally and globally. We want to shape the future together with you through consulting services, education and climate protection projects.**

### Education

Through our interactive and action-oriented educational programmes, we encourage everyone to make a contribution towards our future.

### Consulting and solutions

We offer you consultancy on integrated climate protection with tangible added value. We provide this through analyses, IT solutions, labels and resource management.

### Climate protection projects

With our projects of the highest quality, we promote quantifiable climate protection and long-lasting development worldwide.

# INSPIRING AND INVOLVING

With the help of influential partners, every year myclimate inspires thousands of people of all ages to get actively involved in climate protection.

**165,300**

people reached by myclimate with education initiatives.

**46,400**

swiss school children took part in the Energy and Climate Pioneers project.

**2017**

is the year myclimate launches the Company Challenge, an internal company training platform, at partners like Emmi.

# CUSTOMER FOCUSSED AND PROFESSIONAL

With our varied range of consultancy options, last year we also helped our customers to identify and exploit potential in the areas of CO<sub>2</sub>, energy and resource-efficiency.

**1,700**

tonnes of potential CO<sub>2</sub> savings per year from resource and energy efficiency consultations.

**12-15**

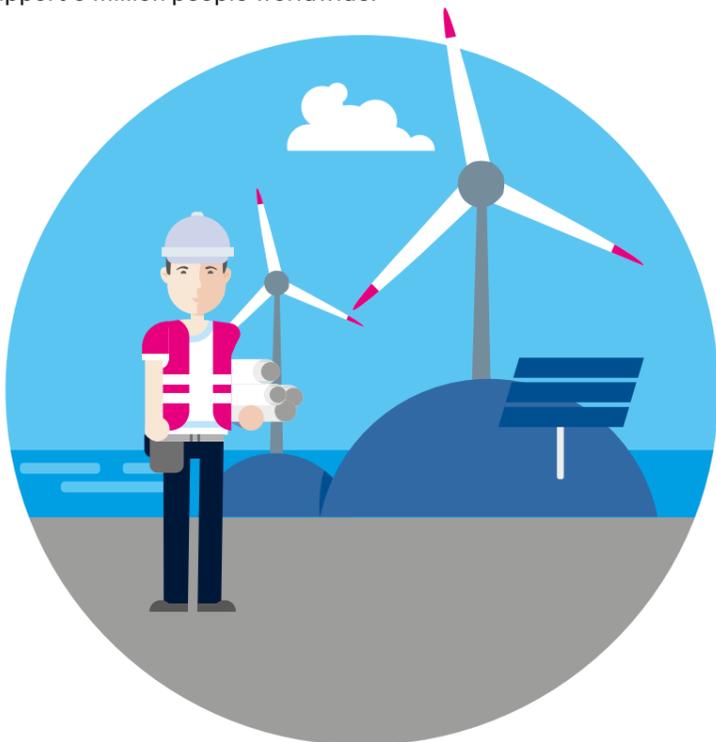

is the number of months until the the cost of the performance software myclimate smart 3 is completely amortised within a company.

**20,000**

individual print orders have been created in our partner print shops using climate-neutral processes.

# CREDIBLE & SUSTAINABLE

We have now developed over 100 projects in 30 countries and in doing so we support 6 million people worldwide.

**> 6 M**

tonnes of CO<sub>2</sub> have been reduced in myclimate projects since myclimate was established.

**650,000**

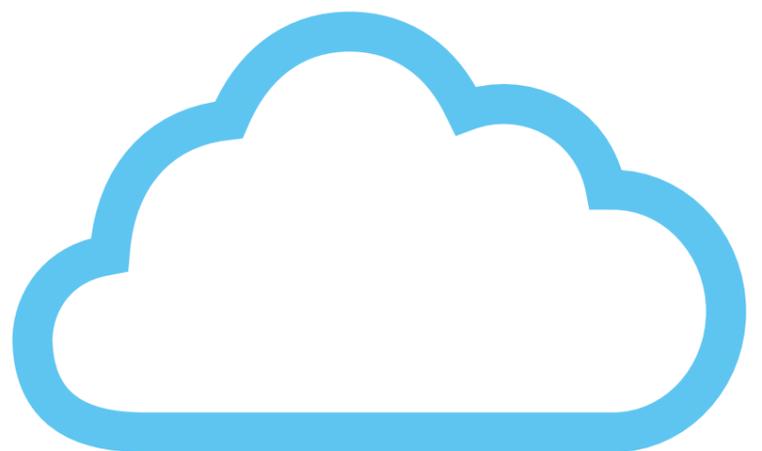

efficient cook stoves have been installed globally in the course of the projects.

**12,800**

jobs have been created in myclimate projects since 2002.

# RECOGNISED & VALUED

myclimate is Switzerland's most recognisable climate protection brand and has over 15 years' experience. Customers, from large-scale international enterprises to local SMEs from the most diverse of sectors, trust in myclimate.

**2002**

was the year the non-profit organisation was founded as an ETH spin-off.

**N°1**

myclimate is the most well known climate protection brand in Switzerland according to independent market research.

**500+**

satisfied customers make use of myclimate services annually.
